bmoez.j@gmail.com
<http://lejenome.github.io>

First step to programming since 14 years old with HTML then Java.

Powerful Shell user with Zsh as my main shell, and Arch Linux as my desktop.

Prefer to use server-less HTML5 for lightweight front-end programming, python/bash for scripting and C/C++ for everything else.

Interested on programming languages development with small knowledge on many different programming languages (ruby, scala, lisp, perl,...).

FOSS contributor who prefer to write patches rather than reporting bugs.

Technical Skills

Likes: ruby, python, linux, c, ecma-script-6, docker, kvm, git
Dislikes: .net, php, jquery

Education

Bachelor of Computer Science – Faculty of Sciences of Sfax 2014 – 2017
computer-science, software-engineering
Technical Leader of FSS Microsoft Club, with mission of moving an almost dead closed minded club to more open development club not limited to MS technologies and products.

Baccalaureate in Technology Science – Hadi Chacker School 2009 – 2013
